

## IPC402B-MPC-WDRD Vandal-proof Dome IP Camera Specifications

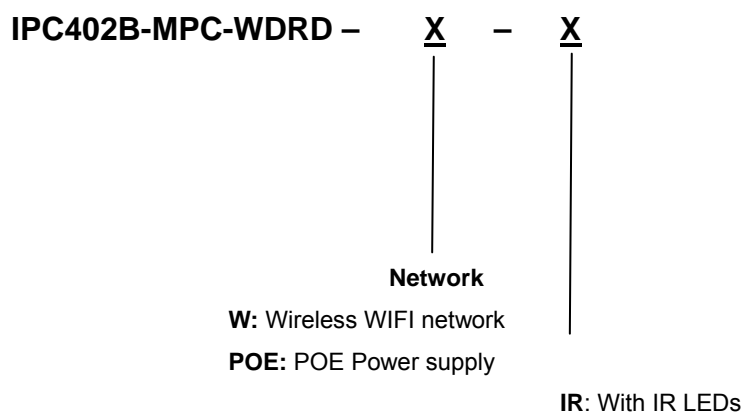

### >>| Product Introduction

IPC402B-MPC-WDRD series is based on IP network, achieve network digital surveillance, and transmit clear, smooth video surveillance images.

IPC402B-MPC-WDRD uses mega pixels 1/3" CMOS, use advanced H.264 codec, Max resolution: 1280\*720, excellent wide dynamic function, low light performance. Supports dual streaming, Transmit high-quality H.264 video in the low-band width network environment smooth, also supports MJPEG compression; Support audio, alarm, infrared night vision, IR-Cut auto switching, provide third-party systems integration interface.

The series uses an integrated Vandal-proof shield, Excellent impact resistance, Applicable to natural environment or human factors need to prevent destruction of the place, such as coal mine, public security, banking, prison. Can be built-in infrared LED, low light or at night black zero illumination conditions can be clearly imaging. It is a good choice that upgrade from analog surveillance to network digital surveillance. With video surveillance system software platform, can realize different network environments of large-scale network surveillance.
